**PROFESSIONAL TRAINING**

\*\*\*implementation of all of the programs below used daily\*\*\*

**Workshop: GenCyber Bulldog Bytes Teacher Workshop**

Mississippi State University, Summer 2018

Trained in coding, cybersecurity to protect devices and passwords, robotics to incorporate into all subject areas, digital citizenship, digital access, commerce, communication, digital literacy, etiquette, rights and responsibilities, ten principles of cybersecurity and its implementation in and out of the classroom

**Workshop: Canvas, 2019, 2020, 2021**

A learning management system allows students to access their courses from their devices. It serves as a source of communication between students and their teachers to make their learning more hands-on.

**Workshop: KAMI, 2020, 2021**

Kami is a leading digital classroom app built to transform any existing document into an interactive learning experience for students. Kami improves engagement and collaboration while teaching in the classroom or online.

**Workshop: Google Classroom, 2020, 2021**

Digital tool/website that simplifies creating, distributing, and grading assignments in a paperless way. The primary purpose of Google Classroom is to streamline the process of sharing files between teachers and students.

**Workshop: School Status 2016**

School Status is an excellent platform that allows us to obtain data/information required for various district-level plans and strategies, including but not limited to our DropOut Plan, Strategic Plan, and student achievement goals.
